Mr. Paul C. Hurst
Facility Manager
Louis Rich Company
RR# 2 Hwy 149
P. O. Box 247
Sigourney, Iowa 52591

Dear Mr. Hurst:

This is in response to your letter of December 9, 1985 in which you requested information about the differences in State and Federal regulations. On July 1, 1985, Iowa voluntarily returned the Federal hazardous waste program to EPA. The hazardous waste regulations, excluding the specific regulations promulgated by the State, are now being administered by EPA until the State requests and receives authorization to manage the hazardous waste management program under the Resource Conservation and Recovery Act.

Although the State of Iowa has returned the RCRA program to EPA, the Iowa Department of Air, Water, and Waste Management does have certain additional requirements which will impact hazardous waste management in Iowa. Four major areas are assessment of fees for hazardous waste transportation, treatment or disposal; development of an underground storage tank program; requirement for new hazardous waste management facilities to obtain a site license; and requirement for a Special Waste Authorization before disposal of certain wastes in a sanitary landfill. It should be noted that a Special Waste Authorization will not be issued for disposal of any quantity of hazardous wastes in the State of Iowa. Specific questions concerning these additional requirements should be directed to the State. Their telephone number is (515) 281-8854.

Transportation of any hazardous wastes must comply with all applicable requirements of the Department of Transportation. You are urged to contact that agency for additional information at (515) 233-1775. I have enclosed some information to help you determine your exact regulatory status as a generator of hazardous waste. I have also included some copies of the Uniform Hazardous Waste Manifest and associated instructions. Please feel free to make copies of the Manifest form as necessary. Your

Notification form and the issuance of your EPA identification number is being handled by Pat Bryant of this Agency. She will contact you if there are any problems with your notification form. Otherwise, you will be notified when your identification number is assigned. If you have any questions regarding this letter, please contact David Huyett at (913) 236-2888.

Sincerely,

Luetta A. Flourney

This site is exempt from the requirement to file the 1993 Hazardous Waste Report because:

- ☐ the site was not a RCRA Large Quantity Generator in 1993

AND

- ☐ the site did not treat, store, or dispose of RCRA hazardous wastes on site in units subject to RCRA permitting requirements in 1993.

It is expected that this site will remain exempt from the requirement to file the Hazardous Waste Report:
